EDUCATION

California Polytechnic State University - San Luis Obispo **September 2021 - June 2025**
Bachelor's of Science, Statistics GPA: 3.70
- Minor: Economics
- Activities: Undergraduate Statistical Research, Statistics Club, Intramural Sports, Young Life

PROFESSIONAL EXPERIENCE

Live Oak Partners | Financial Consulting **Tulsa, OK**
Data Analyst *Oct 2025 – Present*
- Built and maintained a financial data warehouse in the Google ecosystem to process and analyze income and expense data for a national real estate association client, automating reporting across 20+ financial reports and reducing reporting time by ~70%
- Designed automated ETL processes using Google Apps Script to clean, standardize, and produce 5 standard financial reports, ensuring data quality and consistency.
- Conduct quarterly and annual financial reconciliations for two client organizations, validating accounting records and reconciling tens of thousands of dollars in transactions across reporting systems
- Supporting a client's migration to a new inventory management platform, assisting with data structure planning, reporting workflow design, and system integration
- Leading QuickBooks onboarding for a new client, establishing chart-of-accounts structure and financial reporting workflows to support accurate accounting and operational reporting

Apple Leisure Group | Travel and Hospitality Conglomerate **Addison, TX**
Business Analyst Intern *June 2024 – Aug 2024*
- Analyzed emerging AI applications in the travel industry across major travel corporations, producing research used in VP-level product strategy discussions
- Built and automated 3 Google Analytics dashboards used by marketing teams across 2 major travel brands, improving reporting efficiency and insight accessibility
- Analyzed destination performance trends using R and statistical methods to support an SEO initiative that improved online visibility

The People's Kitchen | Non-Profit Organization **San Luis Obispo, CA**
Consultant/Independent Study *Apr 2023 – Apr 2025*
- Designed and implemented a 5-year data pipeline using Google Scripts and Looker Studio, transforming hand-written data into a structured dataset, and enabling real-time dashboard reporting for a non-technical nonprofit team
- Built a 5-page executive dashboard tracking daily meal service and operational trends, giving nonprofit leadership their first centralized reporting system
- Streamlined data collection and visualization, reducing manual reporting time and empowering leadership to make data-driven operational decisions

California Polytechnic State University Statistics Department **San Luis Obispo, CA**
Grader and Learning Assistant *Sept 2023 – June 2025*
- Evaluated coursework for 6 upper and lower-division statistics courses, ensuring accuracy and clarity in student assessments

PROJECTS & LEADERSHIP EXPERIENCE

Selected Academic Projects | My GitHub
- Applied regression, survival analysis, experimental design, and time series methods across multiple projects (e.g., Cox models, logistic regression, ANOVA) using R.
- Projects include survival modeling of tree saplings, cancer prognosis classification, and controlled experimental analysis

Youth Philanthropy Initiative *2018-2021*
Co-Facilitator
- Co-led a $25,000 youth philanthropy initiative, facilitating meetings and allocating funds to community programs
