## Experience

### Live Oak Partners | Financial Consulting

Tulsa, Oklahoma

Consultant/Contract Data Analyst

Oct 2025 - Present

- Building a full-scale data warehouse in the Google Ecosystem to process and analyze income and expense data for a national real estate association client.
- Designed automated ETL workflows using Google Apps Script to clean, standardize, and integrate multi-source financial reports.
- Developed executive-facing Looker Studio dashboards to support financial visibility, budgeting, and operational decision-making.

### Apple Leisure Group | Travel and Hospitality Conglomerate

Addison, Texas

Business Analyst Intern

June 2024 - Aug 2024

- Conducted market research on AI developments in the travel industry to support VP-level product and strategy planning.
- Built and automated 3 Google Analytics reports for Southwest Vacations and Cheap Caribbean, improving reporting efficiency and insight accessibility.
- Analyzed destination performance trends and supported SEO initiative that improved online visibility.

### The People's Kitchen | Non-Profit Organization

San Luis Obispo, California

Consultant/Independent Study

Apr 2023 - Apr 2025

- Designed and implemented a 5-year data pipeline using Google Scripts and Looker Studio, enabling real-time dashboard reporting for a non-technical nonprofit team.
- Streamlined data collection and visualization, reducing manual reporting time and empowering leadership to make data-driven operational decisions.

### California Polytechnic State University Statistics Department

San Luis Obispo, California

Grader and Learning Assistant

Sept 2023 - June 2025

- Evaluated coursework and projects for upper-division statistics course, ensuring accuracy and clarity in student assessments

## Selected Academic Projects | [My GitHub](#)

- Applied regression, survival analysis, experimental design, and time series methods across multiple projects (e.g., Cox models, logistic regression, ANOVA) using R.
- Projects include survival modeling of tree saplings, cancer prognosis classification, and controlled experimental analysis.

## Leadership and Volunteering

### Youth Philanthropy Initiative

Tulsa, Oklahoma

Co-Facilitator

Aug 2018 - May 2021

- Co-led a \$25,000 youth philanthropy initiative, facilitating meetings and allocating funds to community programs.
